2.02.23 my observational drawing

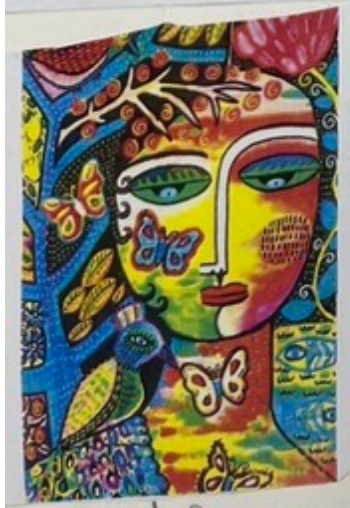

Choose your own object to draw and shade.

I thihk it was intresten beccause it was
beitiful

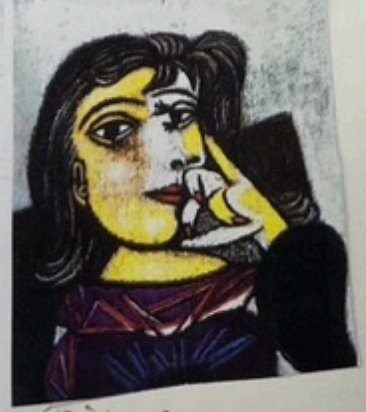

7.9.22

I can compare and replicate a sandra suberzueiy portrate

Let's think back...	
What is the difference between a portrait and a self portrait?	Can you remember any artists that we looked at last lesson who created portraits?
Self Portrait are drawing ya Portraits are some one else	Thomas Gainsborough
What does it mean to compare something?	
to see if you like something more than some thing else	

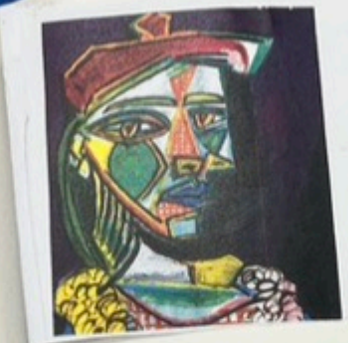

Sandra

Picaso

These portraits are the same because they both have white, yellow and black

These portraits are different because one has bright colours and one

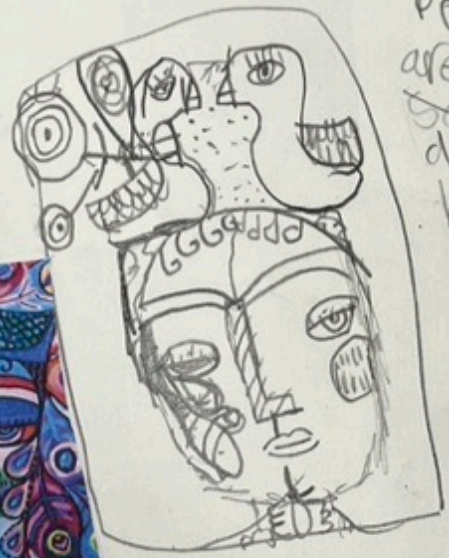

Picaso

sandra

These portrates are the same because they both have some bright colters

these portrates are the same different because picasos has more dork coulte

- ❑ Can you label the primary, secondary and tertiary colours on the colour wheel?
- ❑ What colours on the wheel remind you of winter/cold weather? Can you explain why?
- ❑ What colours of the wheel remind you of summer/warm weather? Can you explain why?

The colour blues reminds me of cold Weather because it is like a frosty colour.

The colour red or orange reminds me of summer because when you see a person's face it is red and also the summer it is hot or sweaty.

I can compare the artwork of Da Vinci and Picasso.

Leonardo Da Vinci was born in 1452 in Italy. He was born in Tuscany in a small town called Vinci. He is famous for his artwork

His famous paintings include Mona Lisa and The last Supper. He used oil paints on canvas

His style of artwork is called Renaissance. He is a very significant portrait artist.

Artwork	Mona Lisa
Renaissance	oil
Tuscany	The Last Supper
Vinci	canvas
1452	

My favourite piece by Leonardo Da Vinci is Mona Lisa. I like it because it is kind of my sty

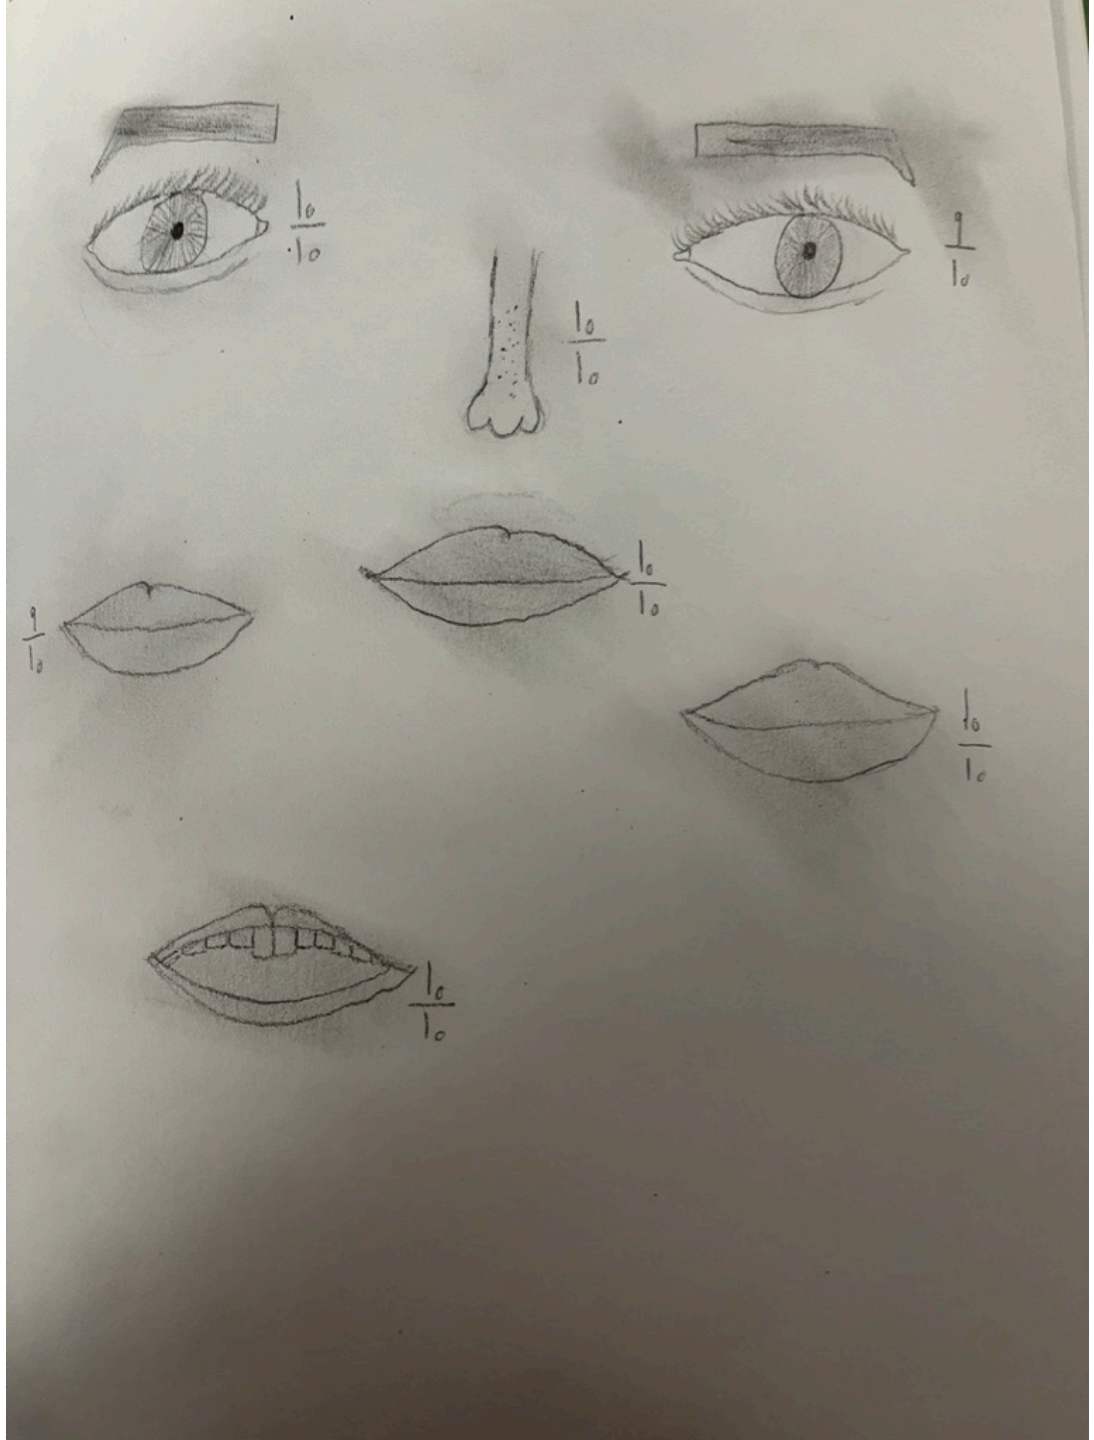

Pablo Picasso was born in Malaga in Spain. He is famous for his portraits

His portraits can be cubism, as he placed facial features in different places. His main materials are oil on canvas and pastels

His style of artwork is called cubism, which means showing subjects in a fragmented way. He spent most of his adult life living in France. He is a very significant portrait artist.

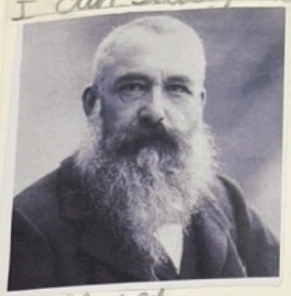

Cubism	portraits
Malaga	pastels
France	
Oil	

What have you learned about Picasso?	What have you learned about Da Vinci?
I hate he enjoys like Cubism	He uses like quite colours
What is similar about their artwork?	**What is different about their artwork?**
they both do portraits	Pablo Picasso enjoy cubism and Da vinci dos not.

2023

I can study Monet's outdoor artwork.

Monet
1840 – 1926

Claude Monet was born in Paris in 1840. His style of art plays with different tones of colours and experiments with effects of light while outside. Most of Monet's famous art works are landscapes or seascapes. He mostly uses oil paints. His style of artwork is called impressionism he is one of the founders of this style of art and the name came from one of his pieces of art.

The piece was called Impression Sunrise

Impression, Sunrise (1872)

Woman with a Parasol (1875)

I like it because it looks realistic.

I Dont like it because the painting is like showing alot of grass.

I like this peice of art because it is a sunrise.

I Dont like it because of the shadow of the people.

Here are sections of painting, cut from Leonid Afremov's work. Can you try and re-create these images with your palette knives? Draw square building shapes and paint these into the shapes.

Which palette knife would you use here? What are the three main colours?

Which palette knife will you use? How will you stop the colours from mixing too much and turning brown?

She had had a doctor called Eloesser

She asked her father to place a mirror above her hospital bed

She was raised by a German father and Native American mother

She was diagnosed with Polio as a child

She often exaggerated her culture

She had a ~~crut~~ crippling car crash in 1925 when she 18

I really like this horse because I think the porpotions are mostly accurate.

27.2.23

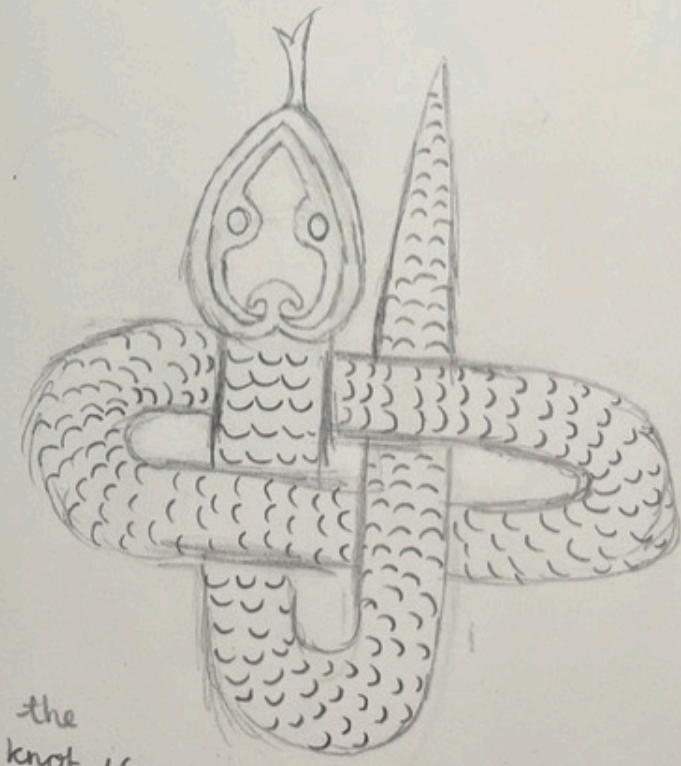

I honestly think the first horse is better because it just looks more like the image.

I think this is not that bad although I should have left some more space for the mouth.

I think the body looks kind of off but the head is quite good. (in my opinion)

I think the serpent knot is okay because I honestly don't really like drawing the snake but the knot is quite

I can sketch the body and features of a polar animal

I have tryed to show the texture of the penguin.

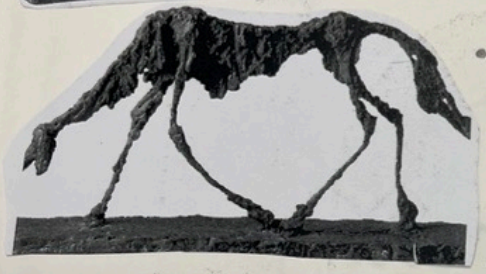

4.11.22

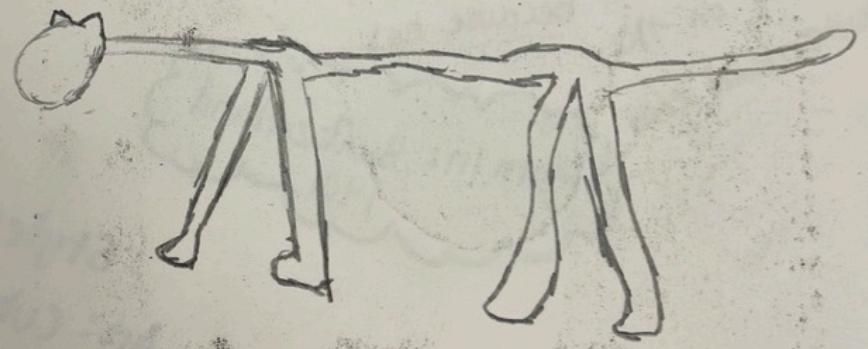

I can learn about the artist and sculptor Giacometti

- I don't really like this piece because its length isn't normal, way to skinny and dull and scary.
- I think this is a cat

- This piece reminds me of a candle melting.
- I think this is a horse

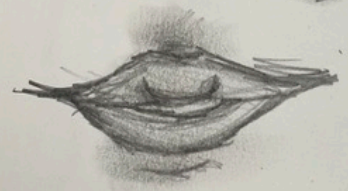

I can practice sketching facial features

I found sketching the eye the most difficult because the eye lashes had to be layered and its hard to layer while sketching.
